

Alipay: How to Pay

3 Ways to Pay in China

Scan QR | Show QR | Tap to Pay (NFC)

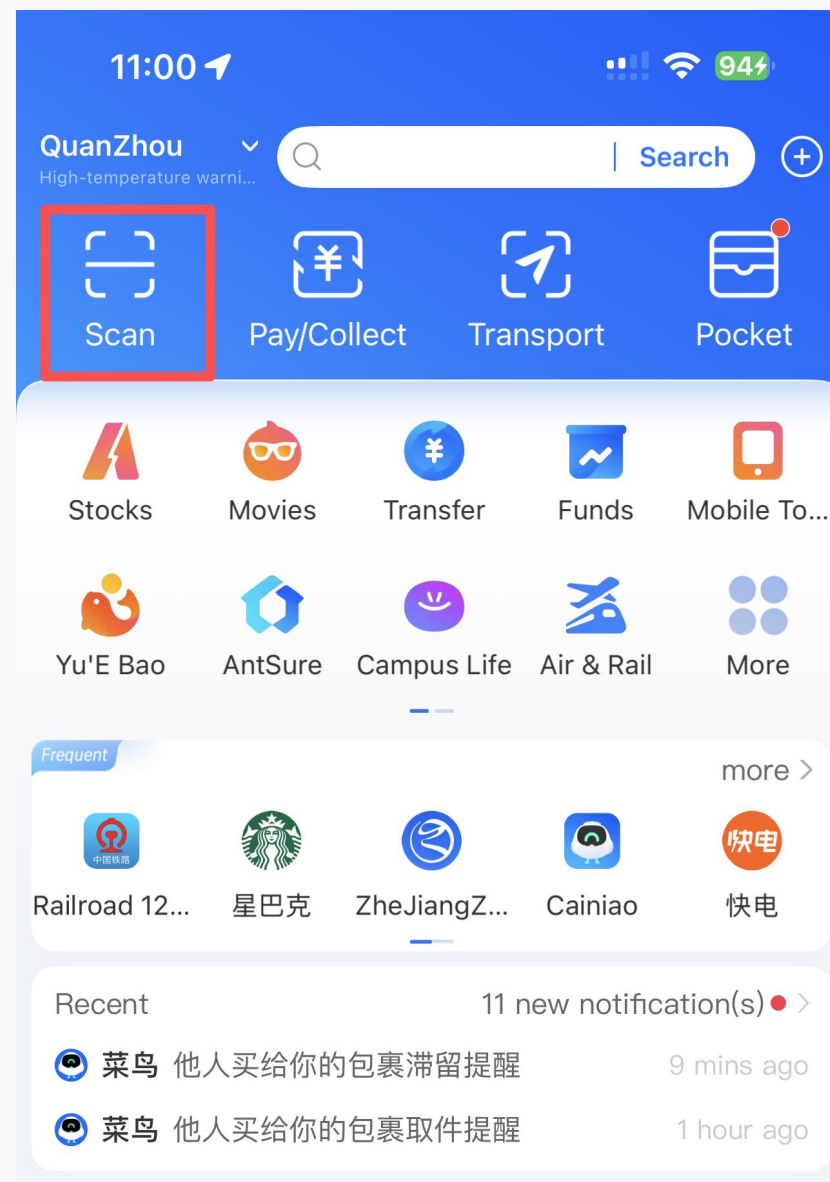

1

Scan Merchant QR Code

- 1 Open Alipay app
- 2 Tap the "Scan" icon (camera icon, top left)
- 3 Point your camera at the merchant's QR code
- 4 Enter the amount shown on the cashier screen or ask "Duo shao qian (how much)"
- 5 Enter your payment password to confirm

WHEN TO USE THIS

Use this when the merchant shows YOU a QR code
(small shops, street vendors, taxis)

2

Show Your QR Code

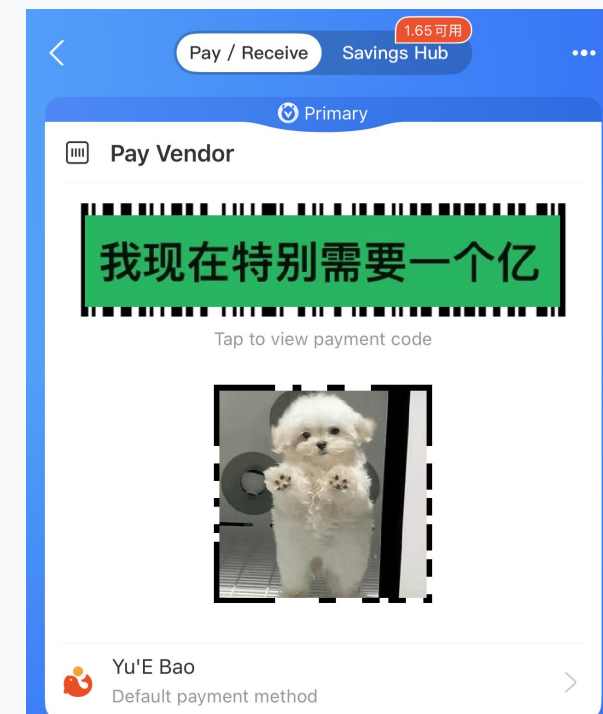

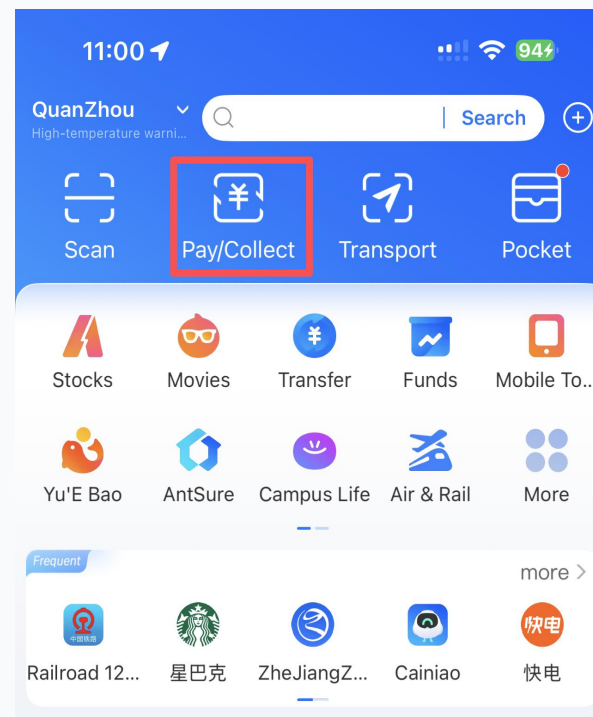

- 1 Open Alipay app
- 2 Tap "Pay/Collect" (top center, yuan symbol ¥)
- 3 Your QR code + barcode will appear
- 4 Show your phone screen to the cashier
- 5 The merchant scans it — payment done!

WHEN TO USE THIS

Use this at supermarkets, restaurants, and big stores where the cashier has a scanner

SAFETY TIP

Please only present payment code to cashier when paying. Avoid sending payment code or screenshots to others and beware of fraud.

3 Tap to Pay (NFC / Peng Yi Xia)

- 1 Look for the "碰一下" (Peng Yi Xia) device 
- 2 Unlock your phone (You can keep Alipay closed)
- 3 Tap the back of your phone on the blue circle
- 4 Payment completes automatically — no password needed!

IMPORTANT NOTES

Requires NFC-enabled phone (iPhone 7+ / most Android) and data environment

Max amount without password: ~1000 RMB

Only works at stores with "碰一下" devices

Useful Chinese Phrases

Point to your phone and say these — locals will understand!

你好

Quick Reference Card

You Scan Merchant

Merchant shows QR → You scan

1. Tap "Scan" icon
2. Point at QR
3. Enter amount
4. Enter password

Best for: Small shops, taxis, street food

Merchant Scans You

You show QR → Merchant scans

1. Tap "Pay/Collect"
2. Show QR to cashier
3. Cashier scans it
4. Done!

Best for: Supermarkets, restaurants

Tap to Pay (NFC)

Phone touches device

1. Unlock phone
2. Tap on blue circle
3. Auto payment
4. No password!

Best for: Convenience stores, cafes

SAFETY TIP

Never show your payment code to strangers. The QR code refreshes every minute for security!
